RegLens – When a Transaction Gets Flagged

Every transaction is checked against these 10 rules.

Rule	Flags when…	Result
Big cash	Cash over ₹10 lakh at once, or over ₹10 lakh in a month.	Report it (CTR)
Splitting cash	3+ cash deposits in 7 days, each just under ₹50k, ₹2 lakh or ₹10 lakh.	Possible suspicious report (STR) – 2 people must approve
Big foreign transfer	Money sent to or from abroad over ₹5 lakh.	Report it (CBWTR)
Charity receipt	A charity/NGO receives over ₹10 lakh.	Report it (NTR)
Cash from one person	A business gets ₹2 lakh+ in cash from the same person in one day.	Warn the business
Cash without PAN	Over ₹50,000 cash deposited in a day by someone with no PAN.	Collect PAN first
Overseas spending limit	A person sends over USD 2.5 lakh abroad in one financial year.	Hold the transfer
Risky country	Money linked to North Korea, Iran or Myanmar.	Extra checks
Politician (PEP)	A politically exposed person moves ₹1 lakh or more.	Extra checks
KYC out of date	Customer ID not refreshed in time (high risk: 2 yrs, medium: 8, low: 10).	Ask for updated ID

When a person must check it

- It must be reported to the authorities.
- The risk is medium or high.
- The AI is unsure, or quoted a rule it can't back up.
- Nothing is reported until a person approves it.

Safety checks

- Limits and deadlines are fixed rules – the AI can't change them.
- Customer names and PAN are never shared with the AI.
- Every decision keeps a full record of why it was made.

Educational prototype – not legal advice.
